

Thomas Julier: *Dawn in the Basement*
April 14 - May 24

Swiss Institute is delighted to present the first institutional solo exhibition of Thomas Julier in the United States, entitled *Dawn in the Basement*. Julier's practice incorporates photography, video, music and sculpture into site-specific installations that alter architectural surfaces and structures.

Down in the basement, the walls are plastered with posters depicting the face of a girl named *Dawn*. Sounds of a band that the artist overheard rehearsing through the walls of his studio emanate from behind a locked door, activating it as a speaker. For his show at SI, Julier has published these recordings as a vinyl release. Two videos, including the final iteration of *Transmissions from Oblivion* (co-produced with artist Thomas Sauter), play on loop. On the occasion of this exhibition, Julier has also created a limited edition poster, 50 of which are signed by the artist.

This exhibition inaugurates the *ONE FOR ALL* series at SI. Building on Swiss Institute's long history of providing a platform for emerging artists, each show will represent the artist's first institutional solo exhibition in the United States, lasting one month and presenting a single newly commissioned work specifically created for the exhibition space. Swiss Institute is very grateful for support from VIA Art Fund, Presenting Sponsor of the *ONE FOR ALL* series.
