Everybody at Art Basel

LISTE 05 FOCUSES ON YOUNG ART

New York's Swiss Institute was special invited guest, presenting assorted projects by their stable artists in the Druckwerkstatt, or printing Workshop, in the fair's Wartek building. These included San Keller's *San Dance Company*, a piece in which the artist attempted to enlist audience members to join him in dance, and a Werner Reiterer piece that encouraged visitors to write messages that were attached to helium balloons and launched into the sky through the building's chimney.
